WOOD PAVING.—The Directors of the Metropolitan Patent Wood Paving Company are prepared to EXECUTE ORDERS, on the shortest notice, for paving Railway Stations, Sheds, Wharfs, Yards, Portions, School rooms, Galleries, Forges, Workshops, Breweries, Stables, Barns, and Stiddle grounds. Their system of wood paving is admirably adapted for the above purposes, and is much in use.—Office, Belgrave Works Thames-bank, Pimlico.

GENERAL WOOD PAVEMENT COMPANY.—The durability, economy, and general advantages experienced from WOOD PAVEMENT, as applied to Railway Stations, Warehouses, Garden Walks, Stables, Forges, Schools, Barns, Kitchens, Cellars, Shittle-grounds, Breweries, Printing-houses, Court yards, Dockyards, Coach-houses, &c. &c. has caused its general adoption. In stables it almost entirely supersedes the use of straw, and perfect cleanliness can be given, of course in harmony, effected by the use of Wood Pavement in stables, in cases of lameness, tendon heads, grease, &c. &c., often no other means could. Prices from 4s. 6d. to 6s. 6d. per superficial yard, complete, according to depth.—Offices, No. 3, Ingram-court, Fenchurch-street, London.

PAVING, 2s. 9d. PER SQUARE YARD, Basements, Pavements, Malt-houses, Corn Stores, Floors of Warehouses and every description of Pavement laid down at the above low price, and the work guaranteed.—Apply to JOHN PILKINGTON'S PATENT ASPHALTE OR BITUMEN PAVEMENT OFFICE, 14, JOHN STREET, ADELPHI.—N.B. Country Agents and Railway Engineers and Contractors supplied with the best bitumen for covering bridges and arches.

BATH STONE DEPOT, Great Western Railway, Paddington.—EDWARD FLEETER, Agent for Job Pinker, Stone Merchant and Quarryman, &c. &c., begs to inform Builders and others, that he has REMOVED to the front of the Railway Station, and continues to supply Bath Stone of the best quality at the lowest prices.—Address as above.

BATH STONE.—RANDELL and SAUNDERS, QUARRYMEN and STONE MERCHANTS. The most approved kinds of Bath Freestone supplied to all parts of the kingdom. Depôts at the Great Western Railway Stations, PADDINGTON, CORSHAM, BOX, BATH, and BRISTOL.—R. and S. particularly invite the attention of Architects and Builders to their Corsham Down stone, which is strong and sound in quality, is of beautiful colour and texture, and works much cheaper than any other stone. Prices, with cost of carriage to any locality specified, furnished on application to Randell and Saunders, 14, Orange Grove, Bath.

ANSTONE STONE WHARF, STANGATE.—Mr. GRISSELL has the pleasure to inform Architects and Builders that he has made arrangements for the SUPPLY of the ANSTONE STONE for all building purposes, and which can now be seen at the above wharf.—Applications to Mr. W. H. WARDLE, of whom every information can be obtained.

N.B. The stone used in the erection of the New Houses of Parliament was supplied EXCLUSIVELY from these quarries.

ANSTON STONE, used for Building the New Houses of Parliament.—W. WRIGHT and Co. beg to inform Architects, Engineers, Builders, and others, the Anston Stone can be supplied in any quantity in the shortest notice. This valuable stone, so celebrated for its durability, colour, and texture, is well known, having been selected in preference to all others, by the Commissioners of Woods and Forests, for building the New Houses of Parliament. It is very superior for Monuments, Tombs, &c. &c.

W. Wright and Co. have made arrangements to have a stock always on hand at Bricket Wood, near St. Albans, Herts, Hunsdon, Ware, Hadham, Hertford, Kingscross, and Further information can be obtained on application to W. WRIGHT and Co., Anston, near Sheffield; or to T. SHARP, their Sole Agent in London, 2, Burton-crescent.

CAEN STONE, from the first Quarries of Allemagne. Depôt at the Whitby and Scotch Wharf, 14, Pore-street, Lisson-grove.—P. FOUCARD, quai des Abattoirs Caen proprietaire des Carrières à Allemagne, begs leave to inform Builders, Architects, and others, that he has on the above-mentioned wharf, the finest stone ready to meet the demands of purchasers.—Contracts taken for any quantities.—Orders received by Mr. RAE HET, as above, or at Caen, Basse Normandie.—Cargoes shipped to order, from Caen, to any port.

CAEN STONE.—Original Sufferance Depôt, Norway Wharf, Greenwich.—W. TUCKWELL, Caen Stone Quarry Proprietor and Importer, begs to invite the attention of Architects, surveyors, builders, and others to the Stock of DRY SEASONED CAEN STONE on his Wharf, comprising about four cubic which has been selected with judicious care, and is fit for immediate use. Shipments made to any port direct from his quarries at Caen.

N.B. Orders received at the wharf as above; also at the offices of MESSRS. WHITHALL, Sarjeaux, on the Quay, Caen, Basse Normandie, where further information, and examples may be obtained.

CAEN STONE SPECIALLY SELECTED. LUARD, BEEDHAM, and Co., extensive Proprietors of CAEN STONE QUARRIES, Allemagne, Calvados Department, beg to inform inspection of their Caen Stone for external and internal works. They continue their importations of the first quality, carefully selected at the quarries.

L. B. and Co. have an hand a large stock of the best quarried stone, at their Depôt, Caen Sufferance Wharf, Rotherhithe, where samples and information may be obtained.—Shipments made direct from Caen to any part of the United Kingdom.

CAEN AND AUBIGNY STONE QUARRIES.—LUARD, BEEDHAM, and Co., beg to inform the Architectural and Building Profession generally, they are importers of the above stone from Aubigny, near Bourges, Normandy, and from its general adoption, where known, are assured of its great utility.

Aubigny resembles Portland in colour and texture, but free from shell, flint, and other contractions in working. Its durability may be known from its appropriation to lighthouses, dock and quay walling, and the Royal Chatham Storm bridge.

L. B. and Co. have a large and seasoned stock at their Depôt, Caen Sufferance Wharf, Rotherhithe, near the Lavender Dock Pier.—Orders executed with dispatch to any part of the United Kingdom.

PIMLICO SLATE WORKS.—GREAT REDUCTION IN THE PRICE OF SLATE!—Mr. MAGNUS has the pleasure to announce that a reduced tariff will be published on the 25th instant, and forwarded, on receipt of a postage stamp, to any part of the kingdom. Half inch slate slabs, planed 3 faces, with sawn edges, from 4½d. per foot, may be sold from 10d. to 1s. per foot super. 1 inch slabs from 8d. to 2s. ditto, and inch slabs planed 3 faces, from 6d. to 2s. per foot super. Enamelled slated chimney pieces, variously marbled, hitherto priced at 40s. to 50s. will be sold from 25s. to 30s., suitable for openings 3 feet 10 inches by 3 feet 2 inches wide. Slate tanks, 3s. per foot cube, outside measure, on wharf, or 3s. 6d. delivered and fixed. Other articles reduced in proportion.—N.B. The finest slate from Monmouthshire, Bangor, and Cornwall.

STIRLING'S BELVEDERE SLATE WORKS, Belvedere-road, Lambeth.—A reduced list of prices of the best WELCH SLATE SLABS planed both faces, will be sent on application (post paid) being made, and inclosing a postage stamp. The prices are under those advertised for inferior slate.

SAMUEL CUNDY, Mason and Builder, PIMLICO MARBLE and STONE WORKS, Belgrave Wharf, Pimlico, begs to inform ARCHITECTS and the PUBLIC that he has availed himself of an improvement in his MACHINERY, by means of which he is enabled to produce GOTHIC WINDOWS, MOULDINGS, PANNELS, &c. &c., at a very cheap rate, out of a superior stone from the west of England, as durable as any soft stone, and particularly sound.

S. C. has an ornamental method of dressing the above stone over, which produces, by the action of the atmosphere, a surface of crystalline hardness, and improves the colour.

DOSTS from M. upwards. Specimens on view of the various styles.

First-rate ARTISTS retained for SCULPTURED and CARVED Work.

Vein Marble Chimney-pieces, of the best quality of material and workmanship, by improved machinery	£6s
Stone ditto, from	£

A variety on view in stock.

MEMORIAL CROSSES, MONUMENTS, TOMBS, HEADSTONES, &c., in great variety of design.

RESTORATION of CHURCHES.—SAMUEL CUNDY having had much practice in this branch, is desirous of continuing his Restorations.

CLERKS of WORKS have their particular attention called to the above establishment. Coats of Arms, Decorated Panels, and other enriched works, promptly executed.

Every description of Stone or Granite work prepared, ready for fixing.—Delivered at the various Railways, and carefully packed in trucks.—Pimlico Marble and Stone Works, Belgrave Wharf, Pimlico.

MARKET WHARF, REGENT'S-PARK BASIN.—Messrs. MARTIN and WOOD (late Seeley and Martin) solicit the attention of Builders, Masons, and others, to their stock of Portland, York, and Derby Stone; also Bangor Slates, Lime, Cement, Plaster, Bricks, Tiles, Laths, Fire-goods, Fire-stone, &c., sold at the lowest possible prices for Cash. Portland Heads, stones, Ledgers, Steps, Landings, &c. cut to order on the shortest notice. Turpaulings let on hire. A Stock of Northen's Drain Pipes, Syphons, &c., always on hand. Mortar, Lime and Hair. Fine stuff, &c.

TERRA-COTTA, or VITRIFIED STONE WORKS, King Edward-street, Westminster-road, London.—W. H. BLANCHARD, from late Coade's Original Works, Belvedere-road, Lambeth, begs to inform the Nobility, Gentry, Architects, and Builders, that he has re-established the manufacture of that invaluable material, which has been successfully adopted by our eminent Architects and others, in the adornments of our noblest buildings, nearly ten years, he has proved the imperishable nature of the material, the specimens of those times now exhibiting all their primitive sharpness.

Groups, statues, friezes, capitals, panelling, pinnacles, finials, cremitals, Tudor, and other chimney shafts, balustrading, fountains, fonts, tazzas, vases, coats of arms, devises, and every description of architectural ornament, at prices in many instances nearly half the cost of stone.

Specimens of the material to be seen at the Office of "The Builder," 2, York-street, Covent Garden, and at the Works.

MARTIN'S PATENT FIRE-PROOF and ORNAMENTAL CEMENT.—REDUCTION of PRICE.—The Patentees beg to inform their Friends and the Public that they have made arrangements which enable them to offer this invaluable cement at a considerably reduced price. It has now been before the public as many years, and has obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. The Patentees, however, feel called upon to observe, that by its use—from the greater amount of surface which a given quantity will cover, and the small amount of labour required in working it, a saving of 25 to 30 per cent. is effected as compared with other cements for internal use. Specimens shewing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement in any quantity obtained of the Patentees, Messrs. STEVENS and SON, at their Plaster and Cement Works, 135, Drury-lane, London.—Agent for Liverpool,

Mr. GEORGE NEWTON, No. 6, Lawton-street, Bold-street.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to No. 248, page 481; and also Nos. 254 and 255, pages 543 and 551 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement: it does not vegetate, crystalize, or turn green; nor is it affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from 30 minutes to 3 hours, for all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, at their Wharf, Great Scotland-yard, Whitehall; also by their Agent at the Depôt, 1, Bath Grove, Liverpool.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement but has the advantage over that material of wholly resisting frost; and when used as a stucco it does not receive or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brick work, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior cementing powers, combined with its eminently hydraulic properties, point it out as the fittest material for building sea and embankment walls, the lining of reservoirs, cisterns, and baths, and for all these purposes where strength and a perfect resistance to water are required.

Manufactories—J. B. WHITE and SONS, Millbank-street, Westminster, and 86, Seel-street, Liverpool.

KEENE'S PATENT MARBLE CEMENT forms an exceedingly hard and indestructible Stucco, which may either be prepared for paint, or in imitation of stone, by the addition of Portland or other stone dust.

It is a cheap and efficient substitute in place of wood for skirting, architraves, and other mouldings, to its application for which purpose it checks the progress of Fire and the attacks of Vermin.

Patentee and Sole Manufacturer, J. B. WHITE and SONS, Millbank-street, Westminster, and Seel-street, Liverpool.

JOHNS and CO.'S PATENT STUCCO CEMENT and PAINT.—The attention of Architects, Builders, Plasterers, Painters, Merchants, and the Public generally is solicited to the many advantages attached to these celebrated Materials, which, for their appearance, durability, impervionsness, utter resistance to frost or heat, and general economy, distinguish them from all other cements and paints, and fully justify the confidence imposed in them, as shewn by the numerous testimonials received from public bodies and private individuals of the first importance.—Price pamphlets and particulars may be obtained from the sole agent, PHILIP HARE, at the Warehouse, 33, Steel-yard, Upper Thames-street.

ROMAN CEMENT, made according to the specification of Parker's Patent, may be had genuine of J. M. BLASHFIELD (late Wyatt, Parker, and Co.), Waterloo Dock Wharf, Commercial-road, Lambeth, No. 1, Ironside Wharf, Paddington, and at the Manufactory, Mill Wall, Poplar. Also Plaster, Mastic, Terra, Bricks, Tiles, &c.

VEINED AND SICILIAN MARBLE

In Scantlings and Slabs of the first quality, just imported.

CUTTLEHILL FIRE CLAY

Retorts, Drain pipes (glazed), Stove-backs, Copings, Chimney-pots, &c.

The attention of builders is particularly called to these fire-brick stove-backs and copings for forming Kennard and other stoves in an economical manner.

PARIAN CEMENT, for internal Stucco, instead of PLASTER OF PARIS, may be painted and papered within twenty hours of its application on the bare walls; and if recently completed habitable by the time before the materials commonly adopted would begin to dry. It is worked without the slightest difficulty. A finer quality is also prepared for ornamental plastering, for encaustic painting, &c. &c. Specimens of which may be seen at the Manufactory of the Patentees, CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

WARWICKSHIRE and IMPROVED LIAS CEMENT.—To Architects, Engineers, Contractors, and Builders.—Lias Lime and Cement manufactured by R. GREAVES, at his works Southam and Stratford-on-Avon, can be had in London, or delivered to any part of the country, at less price than Roman cement and 50 per cent. under Portland. These cements for stucco are indestructible, of a warm stone colour, the "Warwickshire" resembling Caen and the "Improved" a dark tint of Bath stone, and only require to be seen by the profession and trade to convince them of their superiority, of which, out of numerous others, the mansions built by C. W. Mayhew, Esq., and J. Elger, Esq., opposite the Prince's-gate, Kensington, will be a sufficient reference. For economy, ground lias is the best hydraulic lime known, and will become as hard as stone under water. Used, say 1 to 2, it is cheaper than common chalk lime; for example, say—

1-2 ground lias lime, 100 bushels ballast; cost of lime, 3s. 6d.
1-3 do chalk 100 ditto ditto 2s. 6d.
1-3 Portland cement 100 ditto cost of cement, 12s. 6d.

The River-wall lately constructed at Irongate-wharf, under the superintendence of G. Aitchison, Esq., only requires inspection to prove its advantages for water-work. Agents, Messrs. BUTTY and VEREY, 6, Bath Wharf, Paddington.

TO THE BUILDING PUBLIC.

FIRST-RATE ORNAMENTS in PORTLAND, ROMAN and other CEMENTS, and PLASTER of PARIS, at reasonable prices, consisting of Vases, Balustres, Capitals, perforated Panellings, Cantalievers, Brackets, Trusses, Wreaths, Scrolls, Masques, Heads, Pilasters, Friezes, Gothic and other Chimney Shafts, Scrits, Bed-mouldis, Paterns, &c. &c. Centre Flowers from 10 feet diameter downwards. An assortment of Shop-front Trusses always ready for fixing.—HEABERT and SON, Modellers, &c. 21, Parker-street, Drury-lane.

EMERSON'S PATENT LIQUID CEMENT is ready for use, is simple in its application, and only ONE-EIGHTH the cost of oil paint; for beauty it is pre-eminent over all other materials used on the fronts of houses, giving the exact appearance of FINE CUT STONE; can be used at once on fresh Roman cement or other plastering; is particularly calculated for country houses, villas, or gate entrances that have become soiled or dingy, which can be beautified in any weather, at a trifling cost.—Sold in casks of 1, 2, and 3 cwt., at 8s., 15s. and 25s. each.

PATENT MINERAL PAINT.

Invaluable as a coating for SHIPS' SIDES AND BOTTOMS, all kinds of WOOD or METAL work, roofing felts, leaky roofs, spouts and gutters, doors, sheds, railing, and all kinds of out-door work, and being perfectly waterproof, will preserve their surfaces from atmospheric influences and decay,—requires no preparation, and will dry in a few hours.—Sold in casks, 1 to 30 gallons. Brilliant Black, 8s.; Rich Brown, 8s. 6d. per gallon.

BELL, SEAR, and Co., No. 14, Basing-lane, Cheapside.

TODD'S PATENT METALLIC PROTOXIDE PAINT has been found, after the severest trials, peculiarly efficacious in preserving iron and other metals from oxidation, and converted into a useful article which will resist dampness and vegetation. Being free from smell, and without any deleterious properties, it is well adapted for painting the interior of houses, offices, hospitals, and other buildings, which may require to be painted during occupation.—For particulars, apply to B. TODD, Upper Thames-street, London.

PAINTING WITHOUT SMELL; a fact accomplished by the use of the newly-discovered SWEET OIL of TURPENTINE, instead of the deadly abomination called oil of spirits of turpentine. Paint mixed with it is free from smell, is improved in brilliancy of colour, and the baneful properties of the lead being neutralized, does not emit those noxious exhalations which have hitherto been so universally associated with painting. By this really valuable discovery house painting is now converted into a sanitary operation, that may be effected at any season of the year, being productive of health and comfort, without causing the slightest derangement to the domestic economy. Sold at One gallon, cwt., or ton, by every respectable oilman in the kingdom, and at the depôt, 1, Broad's-buildings, Chancery-lane, where may be seen and copies had of, the original certificate of Dr. Kerry, a senior member of the College of Chemistry. Sold also in sample bottles, 1s. and 2s. each, bottles included.

PATENT ALKALI COMPANY'S METALLIC PAINTS.

COLOURS.—BLACK and PURPLE-BROWN.

These Paints (the products of a patent process) possess extraordinary covering quality, and far surpass all other paints in point of durability and economy, two coats being proved to be more than equal to three of any other description. From their chemical composition, they are pre-eminently adapted for covering iron; also stucco, or brick buildings, and every kind of woodwork.

They have been ship-and on shipping to the action of sea water, and of the sulphuretted hydrogen so prevalent in sea-ports and tidal harbours, for more than three years, without change. The attention of the shipping interest is particularly directed to the Company's Patent Compound Metallic Black Paint (the only metallic black paint of any value yet produced), which will be found a most valuable and effectual preservative when applied to iron steam-boats and wooden vessels. It also forms a beautiful covering for stoves. No other paint partakes in any degree of the properties which constitute the great value of these metallic paints.

Numerous and most satisfactory testimonials have been forwarded to the Company's offices, copies of which may be had of the Secretary or of the agents.

Price, by the Ton, £4, delivered in London or Liverpool, exclusive of packages. To be obtained exclusively on application to the Secretary, Mr. J. A. WEST, at the offices of the Company, 31, Fenchurch-street, London, or of any of the undermentioned parties, who are the only AGENTS of the Company:—

Messrs. Read Brothers, London.
Messrs. Matthew and Lewis, Bristol.
Messrs. Evans and Hodgson, Exeter.
Messrs. Clarke and Pill, Yarmouth, Norfolk.
Mr. D. Sanderman, Glasgow.
Mr. G. Sanderman, Dundee.
Mr. M. Newby, Bradford, Yorkshire.
Mr. R. Fox, Edinburgh.
Mr. W. Bailey, Walverhampton.
Messrs. Vint and Co., Newcastle-on-Tyne, and Sunderland.
Mr. Robert Garland, Plymouth.
Mr. Joshua Fox, Truroduas, near Falmouth.

BUILDERS and CARPENTERS' IRONMONGERY WAREHOUSE, 18, Blandford-street, Manchester-square, leading out of Baker-street, Portman-square. Lists of prices may be obtained on pre-paid application.
